The Board recognizes that technological resources can enhance student performance by offering effective tools to assist in providing a quality instructional program, facilitating communications with parents/guardians, teachers, and the community, supporting SAU #41 and school operations, and improving access to and exchange of information. The Board expects all students to learn to use the available technological resources that will assist them in the performance of their education. As needed, students shall receive training, lessons and instruction in the appropriate use of these resources.

Students shall be responsible for the appropriate use of technology and shall use the SAU #41's technological resources primarily for the purposes related to their educational duties. Students are hereby notified that there is no expectation of privacy on district computers, computer files, email, internet usage logs, and other electronic data.

The Superintendent or designee shall ensure that all SAU #41 computers with Internet access have a technology protection measure that prevents access to visual depictions that are obscene or pornographic and that the operation of such measures is enforced. The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research, educational or other lawful purpose.

The Superintendent shall establish administrative regulations and an Acceptable Use Agreement that outlines student obligations and responsibilities related to the use of SAU #41 technologies. He/she also may establish guidelines and limits on the use of technological resources. Inappropriate use may result in a cancellation of the student's user privileges, disciplinary action, and/or legal action in accordance with law, Board policy, and administrative regulations.

This policy is referenced in all student handbooks. Students and his/her Parent/Guardian shall be required to acknowledge in writing that they have read and understood the SAU #41's Acceptable Use Agreement.
